

SCALA RIDER™ TeamSet™

Cellphone & Intercom Headset

Fits all
helmets

Fully weather
protected

Top sound at
high speed

Auto-volume
adjustment

5 minute
installation

Dual
Speakers

Voice
command

Up to 7 hrs
Talk-time

**Intercom
enabled**

Voice command *TeamSet™*

The new **TeamSet™** is the perfect hands-free communication tool for serious bikers. Now you can talk with your passenger (on intercom mode) or conduct an outside call, or **both** at the same time (conference call).

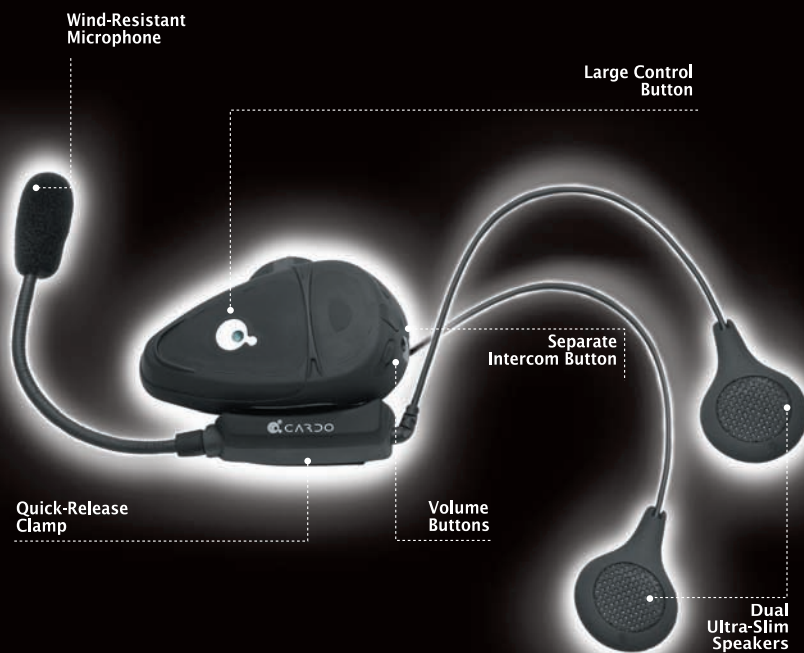

In addition, if the environment gets noisy or you increase your driving speed, the headset automatically adjusts the sound level. Incoming calls may be rejected or accepted by voice-control. Two ultra-slim, high-quality speakers inside your helmet assure superb audio.

Enjoy maximum freedom to ride your bike while conducting conversations without leaving the handle bars.

High-end mobile phone and Intercom communication

- Receive, initiate, and reject mobile calls by voice control (only driver's unit contains BT module).
- Intercom: Two-Way radio between driver and passenger. Driver can also initiate conference call with passenger and third party.
- Utilize Intercom functions WITHOUT a cell phone
- Weather protected headset fits open-faced and full-size helmets.
- Self-installation of entire system within 5 minutes, leaving no traces on helmet.
- HIB (High Impact Balancing) Microphone for high quality audio.
- AGC Technology automatically self-adjusts speaker volume according to ambient noise level and driving speed.
- VOX Technology provides voice-controlled receiving and rejecting of incoming calls.
- Special clamp allows attachment & release of the headset within seconds.
- Dual Ultra-Slim Speakers for superb audio.
- Up to 7 h. talk-time / 1 week stand-by (recharging from any regular outlet).
